SUMMARY

I am freshly graduated. I aspire to progress in the film industry in the objective of becoming a successful director. I am interested in the making of films as well as series and documentaries. I am multilingual; my mother tongue is Arabic. I am fluent in French and English, both written and oral, and I have good knowledge of Italian. In addition to my academic experience, I worked as an actor since my youth. I participated in more than ten series in a supporting role.

I am a highly motivated person and I am known for my ability to work with a team especially as a leader. I was always selected as the leader because I am considered to be a good communicator, well organized and reliable. I am a down-to-earth person; I know I have much more to learn in the industry, but I believe in my talent and I am willing to do whatever it takes to succeed.
