

Motorbike Tour Alps and Dolomites

11 Nights

July– August 2016

Summary

Entirely set on mountain roads, this is a tour in the majestic Italian Alps stretching over 10 full days in the saddle on a west-east route from Lombardy across to Trentino. It's a ride through breathtaking high-mountain landscapes and enthralling passes, with the odd raid back into civilization. The tour is entirely on tarmacked – but often highly challenging – mountain roads that will reach the altitude of 3,000 meters (9,800 feet) above sea level. There will be many tight bends and hairpins with very narrow and difficult sections of road. But due to the particular distribution of the hotels, only 5 for 11 nights, this tour is also particularly suited for passengers who don't want to spend all days on the bike. If you want to put your riding skills to the test in the mountains, amid sharp bends and major climbs and descents, then this is the tour for you.
