The worker district La Boca is famous for its colorful tin-houses and its history as living district of Italian seamen and dock workers in the 19th century. The Barrio Norte called Recoleta is the quarter of the rich of Buenos Aires. On the cemetery of Recoleta one will find the grave of Eva Duarte who became famous as Evita Perón. *In the morning you will go on a half day tour to the Tierra del Fuego National Park, where you will get the impression as if time goes slower than anywhere else.
The long stormy winters and the width of the sky formed a very simple and modest way of living. The National Park is crossed by many rivers which flow into the Beagle Channel.
Drive through the park to enjoy the landscapes and have a little walk.
In the afternoon the following optional tour can be booked with our local SAT office:
Optional: Catamaran tour on the Beagle Channel
The Beagle Channel became its name due to the expedition from Charles Darwin. You will pass through the Casco Island where a lot of nest from seabirds and sea lions can be seen onto the Island Los Lobos to see the sea lions.*
- Day 05 Tuesday:** **Ushuaia – Calafate**
*Transfer to the airport and flight to El Calafate (not included). Pick up at the airport by our local guide and transfer to the hotel.
The afternoon is at leisure*
- Day 06 Wednesday:** **: Calafate – Perito Moreno – Calafate**
Today guests will go on a full day tour to the Perito Moreno Glacier. After a drive through the National Park Los Glaciares one arrive all of a sudden in a forest full of colours, before one sees - equally unexpected - the glacier Perito Moreno. This is one of the few glaciers that are still growing. Every 4 to 5 years it covers the gap between the mainland and itself and grows into the Lago Argentino. Eventually the ice cannot resist the enormous pressure of the water and crashes with a frightening noise. One can watch this glacier spectacle every day when single ice blocks fall into the lake. Considering that the glacier is 5 km long and 70 m high one can imagine the noise this makes. Here we will have 2 hours to experience the glacier before driving back to Calafate.
